Profile

Software Developer with a background in Actuarial Science and experience in real estate, I possess a diverse skill set in both front-end and back-end web development. My passion for creating efficient and user-friendly web applications drives me to continuously learn and adapt to the latest technologies and trends in the field. I am proactive, capable of handling challenges and delivering high-quality results. My internship and extracurricular experiences demonstrate my commitment to personal and professional growth.
Proficient in HTML, CSS, JavaScript, and the MERN stack (MongoDB, Express.js, React.js, Node.js), I build dynamic and responsive web applications. My strong problem-solving abilities and attention to detail ensure smooth website performance. With effective communication and collaboration skills from previous work experiences, I offer exceptional customer service. Eager to contribute my passion and expertise, Constantly learning new technologies to stay up-to-date, I am excited to embark on a fulfilling career journey in software development.
